WRO
WORLD ROBOT OLYMPIAD™

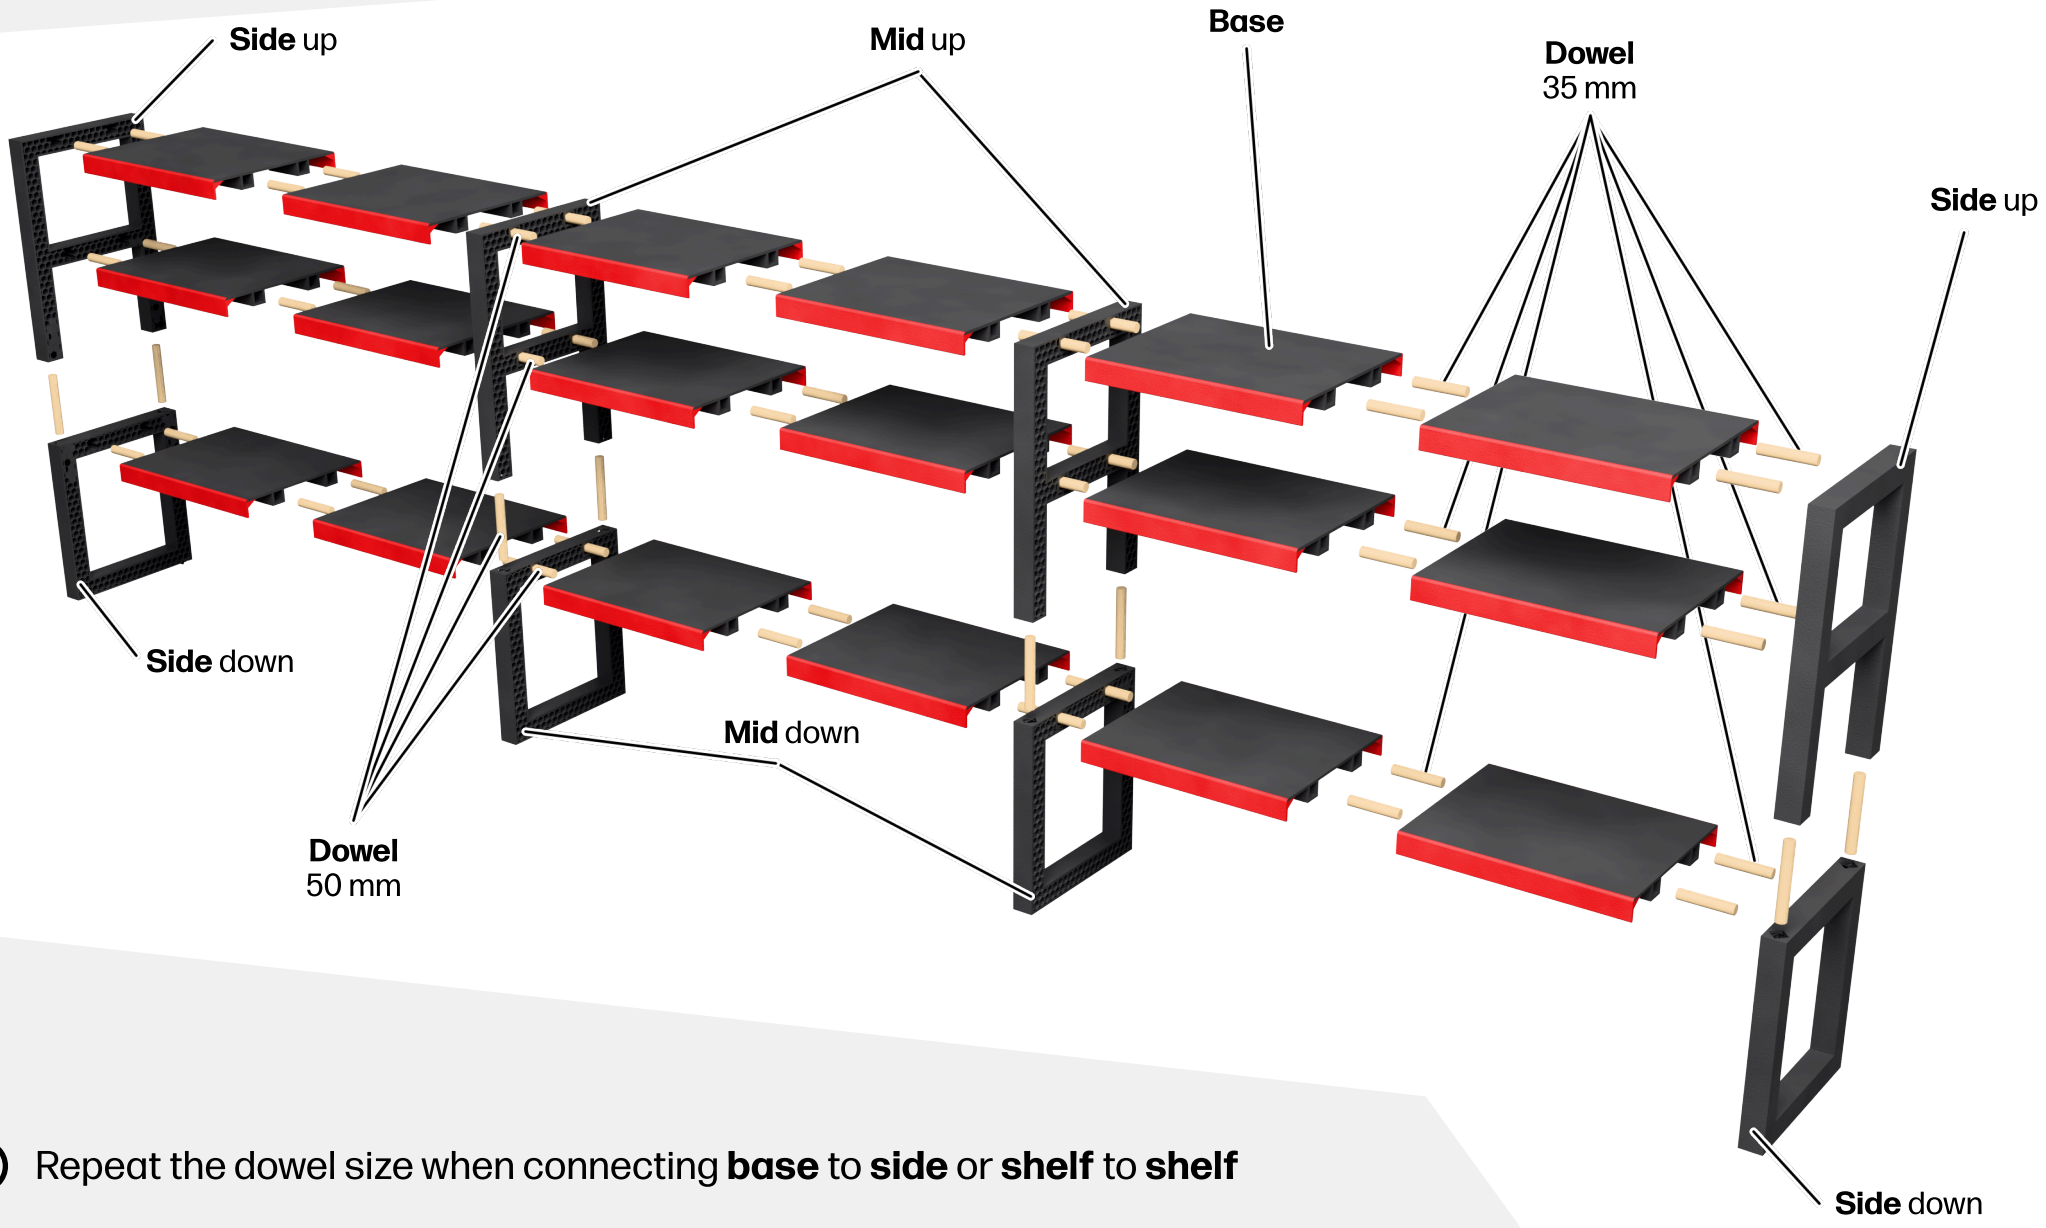

Smart Warehouse set

for **WRO Future Engineers**

Assembly Manual

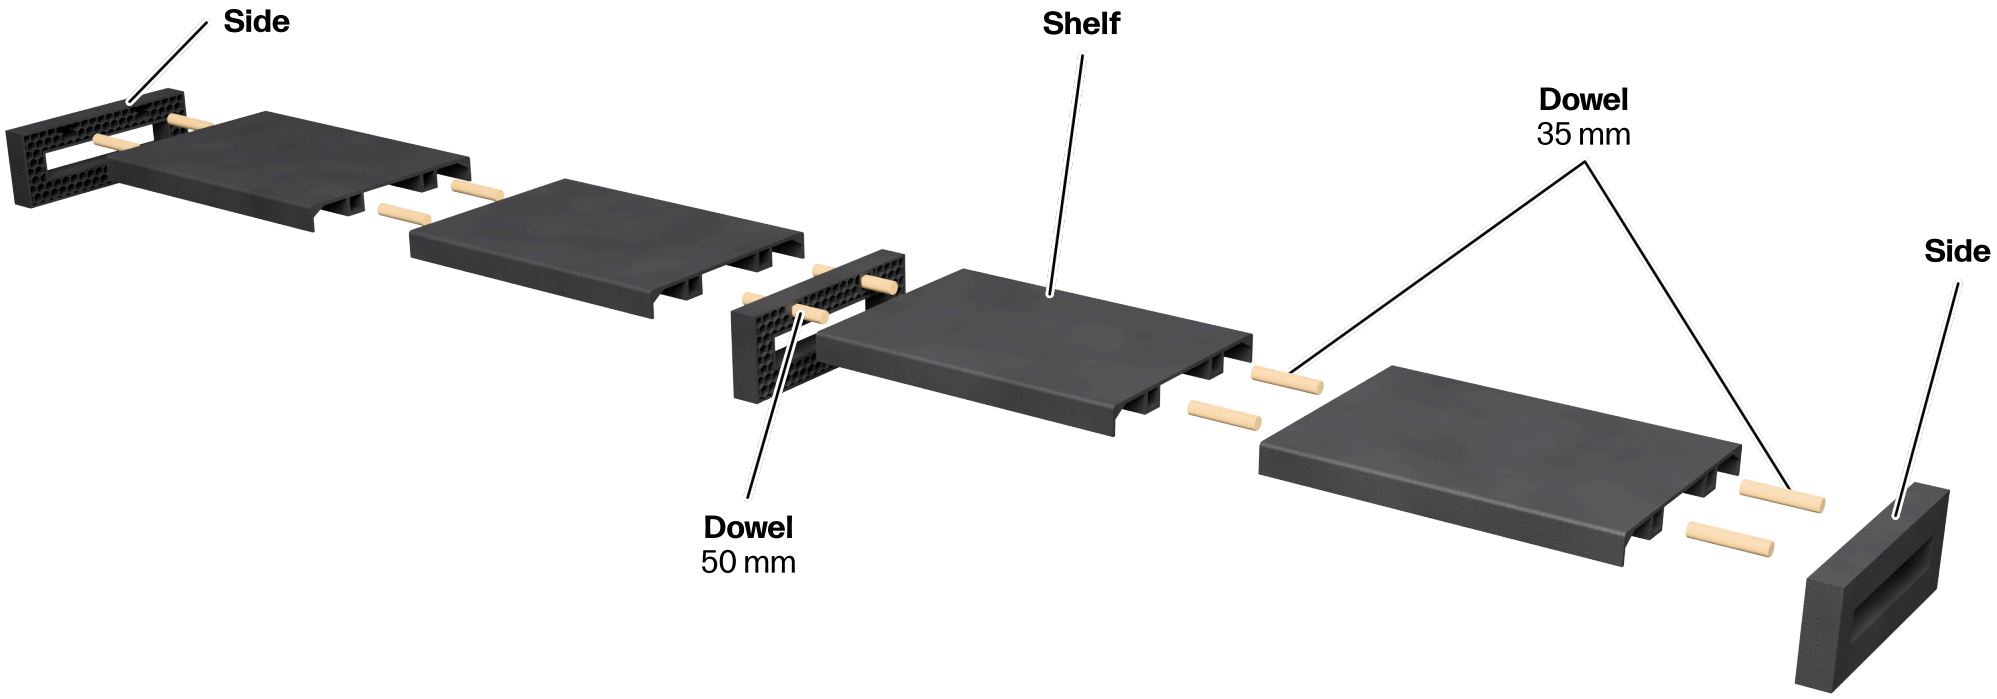

Rack assembly

ⓘ Repeat the dowel size when connecting **base** to **side** or **shelf** to **shelf**

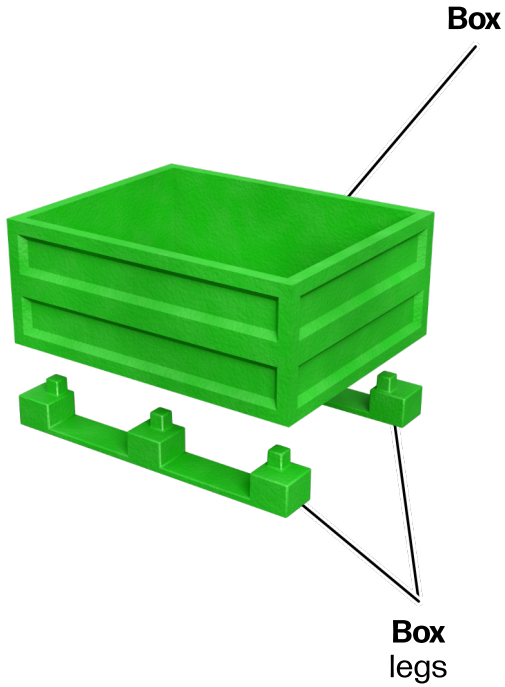

Workbench assembly

Robots

ⓘ Repeat the dowel size when connecting **shelf** to **side** or **shelf** to **shelf**

Box assembly

Safety information

- **Not a toy.** The parts are competition equipment for WRO Future Engineers, intended for users aged 14 and over.
- Printed parts and dowels are small – keep out of reach of small children.
- Do not climb, stand or sit on the parts and do not load them with heavy objects – they are game elements, not furniture.
- Wooden dowels may splinter. Replace damaged or broken parts before use.
- Do not expose to temperatures above 40 °C - PLA plastic can deform.

Printing and assembly

- Print quality and fit depend on your printer, material and settings. Check every part before use.
- Wooden dowels Ø 8 mm (35 mm and 50 mm) can be printed or sourced separately.

3D files

- The 3D files are provided free of charge, **as is**, without any warranty.
- You print, assemble and use the parts at your own responsibility. MORAVIA Consulting is not liable for parts produced by third parties.
- Manual version 1.0 (11/2026) for 3D files v1.0.0.
- License: CC BY-NC-SA 4.0

Prefer a ready-made kit?

Printed, checked and complete with dowels:
